

Class 1

Summer Term

We have had such a busy term in the Early Years Class of Marton cum Grafton.

We began the term with an amazing discovery. A large egg was found in our strawberry bed. The children looked after the egg and every few days a new crack appeared until finally a tiny dinosaur emerged from the egg. The perfect exhibit for our role-play museum!

We all played palaeontologists as we dug in the sand for fossils and carefully brushed them clean. We used our dinosaur learning to develop our maths and phonics skills as well as our curiosity. We enjoyed a super trip to the woodland classroom, hunting for dinosaurs and sharing our Talk4Writing in the outdoors.

After half term we were joined by the lovely Paddington Bear. The children wrote instructions and made and tasted marmalade sandwiches. We wrote questions and postcards to Paddington's family and found a bit about life in Darkest Peru.

The Reception children of Class 1 went on a grand day out to the National Railway Museum in York. They behaved and participated brilliantly and wrote letters to tell Paddington all about it.

We have been thinking about other bears too and celebrated a fantastic year with a Teddy Bears' Picnic.

The grown-ups in Class 1 are unbelievably proud of all the children and wish you all a super summer!
