

### Year 3&4 Autumn 2017 ~ Home Learning

This term, we would like everyone to choose at least 1 piece of extra homework from the options below. It can be presented in any way: through art, presentation, PowerPoint, drama, maps ... or whatever else you come up with! It is to be completed and ready to share with the class soon after the half-term holidays (**Monday 6th November**).

Parents, please help your child decide **WHAT** they will do and **HOW** they will present it.

There is no minimum or maximum expectation in terms of the quantity of homework produced... just choose a task (or tasks) which you'll really enjoy doing.

<u>Explorers</u> : find out about the life, travels and discoveries of a famous <b>non</b> -British explorer e.g. Christopher Columbus.	<u>Digestion</u> : find out about what happens to food when it goes into (and through) the human body.
<u>Design and Technology</u> : make a model of an explorer's ship.	<u>French</u> : what do you know about France? Focus particularly on the French language.
<u>Writing</u> : write an illustrated story about a fictional explorer ( <b>not</b> a real one who has actually lived).	<u>Free Choice</u> : do any task to do with your favourite hobby.
