

Spring Term 2015

Class 3

Happy new year to everyone!

I hope you all had an enjoyable and, if possible, restful holiday.

This term we see a new topic introduced in Geography which is Volcanoes. We will be briefly revisiting Rivers as well as looking at the water cycle. There will be a big history topic about The Roman Empire and in science will be studying Rocks and Electricity. In RE, the question 'How and why do Christians and Muslims see life like a journey?' and in the lead up to Easter be thinking about 'Hope from Despair'.

As usual, we will be making as many cross curricular links in order to reinforce the children's learning and making the learning as hands on and investigative as possible.

The children will also be exploring rhythm and structure in Music and in PSHCE will be thinking about 'Me and My Future'. We will be looking at the work of artists and making 3D structures out of mod rock in art and will be making a model which uses electricity in DT.

In PE, there will be half a term on each of swimming, gymnastics, dance and games. French lessons will continue as the children study 'Je suis musicien'.

This just gives a very brief overview on what the children will be learning this term. As always, please do come and have a chat if there is anything you are unsure about or have concerns as the term progresses.
