

Spring Term Home Learning

As with last term, we would like everyone to choose at least 1 piece of extra homework. It can be presented in any way: through art, presentation, Powerpoint, drama, maps ... we will leave it to your imagination! However you decide to present it, you need to think through what you are going to say and how you will say it. The objective is to practise speaking to the class. It is to be completed and ready to share with the class before Easter.

Please help your child rehearse what they are going to say. House points will be awarded for preparation, a clear loud voice, quality of work and engaging with their audience (eg making eye contact).

Plan and make a healthy meal for your family.	Find out about different types of rocks and perhaps fossils.	Find out about the canals in Boroughbridge.
Find out about special journeys which Christians or Muslims make.	Create something which uses electricity.	Research any aspect of history post 1066.
