

## SUMMER 2015

What a busy term this is going to be. Here are just some of the things we will be covering:

- Maths: Time, money, fractions, statistics...
- Literacy: Story writing, science reports, paragraphs...
- Science: Living things and their environments, the water cycle, fossils and soil....
- PE: Orienteering, rounders, athletics...
- RE: Places of worship
- Music: Joseph the musical
- Art: the work of sculptors and creating sculptures
- Topic: The local area  
IT: creating keys and data bases
- Visits and visitors: Countryside Day at the Yorkshire Showground, a tour of some of the churches in Ripon, possibly a trip into Boroughbridge (if we can fit it in!) and a camp out experience on the school field along with challenge activities.

Hopefully this gives a taster of what is to come!

If anyone has 10 minutes to spare at the beginning of the day to listen to a couple of children read, we would be very grateful! Please come and have a word if you think you could help.
