

SUMMER 2016

What a busy term this is going to be. Here are just some of the things we will be covering:

- Maths: Time, money, fractions, statistics...
- Literacy:
- Science: Plants and animals
- PE: Gymnastics, rounders, Kwik Cricket, athletics...
- RE: Religious celebration, shared religious stories
- Music: Musical elements
- Art: Ancient Greek architecture, modelling
- Geography: The coast
- Computing: Handling data
- PSHCE: Handling money

Hopefully this gives a taster of what is to come!

If anyone has 10 minutes to spare at the beginning of the day to listen to a couple of children read, we would be very grateful! Please come and have a word if you think you could help.
