

Summer 2018

Dear Parents/Carers,

Welcome back!

Our Topic this term is 'Grand Designs'. As part of this, we will be taking part in a whole school extreme survival week, investigating climates around the world and linking to our learning about the Stone Age.

In Literacy, we will be focusing on creative writing, covering story writing and poetry. As part of this, we will be examining descriptive writing and techniques. Also, we will be writing some Villainous Speeches-concentrating on authorial purpose and time!

During Maths lessons, we will be following the Maths No Problem scheme with a focus on geometry and measure.

In Science, we will be learning about the life cycles and habitats of both plants and animals as well as how these have adapted and evolved over time.

Linked to our Topic, we will be studying the Stone, Iron and Bronze ages in History.

In RE, our focus will be on the religion of Islam for the first half term, followed by considering the impact of religion on the individual.

After half-term, Class 4 will be attending swimming lessons on a Wednesday as part of the PE curriculum. We also have some exciting competitions and Sports events to attend!

Obviously, a big focus of the latter part of the term will be on the end of year production so we will be combining all of our creative energies to learn lines, songs and put together dance routines in preparation!

Miss Stride
