

## California art work.

We have been doing art work about California this term. Our design brief was to choose a California landmark and decide how we would like to create it using any art or design of our own choice. I decided to design the golden gate bridge out of card. I did the golden gate bridge out of K'Nex with Henry and Adam. Quite a lot of people did the Hollywood sign. There were only 2 groups that did the golden gate bridge.

### **VX tournament**

On Friday 28th June, Class 4 went to Ripon Grammar High School for a VX tournament. We had 3 teams. When we got there we went into the sports hall to have a talk about the rules and what is allowed and what isn't.

Most of us had never played VX before so we watched the leaders play to get an idea what we had to do. Then Paul Hildrith gathered everybody around to tell us the team we were against. As soon as we finished, we all got started.

Everyone had five games each. Everyone was having a great time and the hall was full of action-packed noise.

At the end of all the tiring games we had the finials. In the 3rd-4th play-off one of our teams managed to pull through. Then it was the finals. It was a tight heat, but Marton cum Grafton 3 came second by 2 points. At the end of the tournament, we sat down and waited for the medals, certificates and bibs to be presented.
