

Probably the most local of the school governors being less than 100 yards from the school. I have lived in the area for over 10 years having been sent to the area initially whilst serving in the Army.

Having left the military in 2011 the family decided to settle in the area permanently and I currently fly commercially for the Great North Air Ambulance and for a Helicopter Charter company at Leeds Airport.

Married to Tanya we have 2 children, one of whom is at the school.
