

I first started volunteering at Marton in 2010 when I would come in to do art projects in reception with the children. Over the years I have become more involved at school through helping out with sports days, after school club and working as a Teaching Assistant.

After spending a year in New Zealand travelling and mountain biking I came back to work at Marton and completed my level 3 early years workforce diploma at college. I currently work predominantly in year 1 as a TA as well as taking all year groups swimming on a Wednesday. On Fridays I also work with all year groups helping them in PE and work in both the after school and before school clubs. My aim in life is eventually to train to be a teacher.

Outside school time I can be found spending my weekend mountain biking and playing football for both Thirsk Town and Helperby. My other hobbies include badminton, guitar, drawing, surfing and snowboarding.
