

Our Internet Rules Foundation Stage & KS1

- ✓ 'DB Primary' is the name of our school's Learning Platform. Our Learning Platform is our school on the internet. When we use DB Primary, we must follow some of the same rules that we do in school.
- ✓ I follow my teachers' and parents' instructions when using the internet
- ✓ I keep my DB Primary password a secret.
- ✓ I only login to DB Primary using my own username and password.
- ✓ I am kind to others and I use kind words.
- ✓ I only upload and write what I want others to see.
- ✓ I can tell my teachers or parents if someone is unkind to me on DB Primary.
- ✓ I know that other children and school staff can see what I write on DB Primary.
- ✓ I check with my teachers or parents before using a website. In school, I will use the internet for school work only.
- ✓ I turn the monitor off or click on the whistle if I see anything on the internet that upsets me and then I tell an adult.
- ✓ I understand that my teacher will look at what I have been using on the internet.
- ✓ I enjoy using ICT at home and school and understand that I must follow the user rules to be allowed to use the internet at school and log-in to DB Primary.
