Dear Parent or Guardian

CONSENT FORM TO USE AN IMAGE OR PHOTOGRAPH

- 1. Photographs and Images: Increasingly, computers and related technology are making it easier to use pictures and images in printed materials or on websites. As more and more people now have home computers we need to take steps to prevent photographs and images being wrongly used. We take the issue of child safety very seriously and will not use an image of your child without your prior consent. This is a general consent form to enable the school, official County Council photographers or authorised press photographers to take and use photographs of your child individually or in a group. There may be occasions when it is intended to use a photograph or image that identifies your child by name e.g. as part of a newspaper article, or is to be used in a particular context. In these instances you can indicate whether you would be happy for the headteacher to use his/her discretion in the matter or whether you require the school to seek your specific permission.
2. Videos: Although there is no difference in the principle of use of electronic images on a website and use in a video, some parents/guardians may have concerns about other individuals videoing their child while participating in school activities. Therefore, it is proposed to give you the opportunity to withdraw your child from activities where videoing will be allowed by the school.

Please use BLOCK CAPITALS

Form with fields for Name of child, Name of person responsible for the child, and consent sections for Photographs and Images, and Videos, including Yes/No options and a signature section.

Please note: This consent is considered valid for the time your child is registered at the school shown above unless you specifically inform the school in writing of withdrawal of consent. Any specific images and negatives of your child will be destroyed when your child leaves the school mentioned above. Some group photographs and images may be retained as part of the historical record of the school.
